LIFT COMPONENTS PVT. LTD.

About us

'Fulcrum Lift Components Private Limited' is offering 'One Stop Solution for All Elevator Components.We cater the needs of new elevator installation, modernization and maintenance. Our focus is to offer design, innovation and right selection of elevator components to elevator companies for all their component requirements in India and abroad. While selecting high quality and reliable components we also ensure all the safety and specifications are in line with Indian (IS 14665-2-1) and European (EN) norms. In depth Technical Knowledge of elevator components is our strength.

We are official channel partners for various national and international brands. In addition to standard components we also offer customized components as per customer requirements.We offer the best price for elevator components which brings value for your money. Our vision is to offer solutions to elevator companies so that the final product delivered is safe and reliable. We are operating from Pune and having our customers spread across India.
